

Diagram 1: A vertical column of 10 dots (5 black, 5 white) next to a hatched rectangular box. To the right, three radio button options are shown: a blue and yellow rectangle, a green square, and a pink square. The first two options are followed by a red square with a question mark. The second option is also followed by a red square with a question mark. Below the second option is an 'X'. To the right of these options is another hatched rectangular box containing a pink square with a checkmark, a pink square with a right-pointing arrow, and a pink square.

Diagram 2: A vertical column of 10 dots (5 black, 5 white) next to a hatched rectangular box containing a pink square. To the right, three radio button options are shown: a blue and yellow rectangle, a green square, and a pink square. The first two options are followed by a red square with a question mark. Below the second option is an 'X'. To the right of these options is another hatched rectangular box containing a pink square with a checkmark and a pink square.

Diagram 3: A vertical column of 10 dots (5 black, 5 white) next to a hatched rectangular box containing a pink square. To the right, three radio button options are shown: a blue and yellow rectangle, a green square, and a pink square. The first two options are followed by a red square with a question mark. Below the second option is an 'X'. To the right of these options is another hatched rectangular box containing a pink square with a checkmark, a pink square with a right-pointing arrow, and a pink square.
